Tuareg Serie Super [Rif.: #004]

The machine has been totally checked and placed in all its parts. All worn components have been replaced. Some of the components used on this beach cleaner are similar to those used in the new series. Frame and body are of the previous version "Super Series".

The segment is almost identical to that of the Tuareg 235S model. It is 220 cm wide. Included in the price we provide a pair of 20x20 mm hole grids, a pair of 10x10 mm hole grids and the cardan joint. On request we can also supply the wheels, useful for managing the working depth.
