

PFG Delfino
[Rif.: #010]

Delfino is the small self-propelled beach cleaner with great performance.

Equipped with a 5.5 HP Honda engine, it works for a width of 75 cm and a working depth that varies from 0 to 10cm with a working capacity of 10500 square meters / h.

Delfino is equipped with separate controls for quick detachment of both the sieve screen and the loading roller and it is possible to apply a small rear scraper and a rake.
